EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

1. Summary of Overall Responsibilities

The following table summarises the overall split of safety responsibilities between planner, organiser and controller. Note that for a local SOG event, Planner and Organiser may be the same person.

	Planner	Organiser	Controller
Definition of responsibilities from BOF event safety guidance	Responsible for the course from start to finish.	Responsible for the remainder of the event	
Specific safety responsibilities prior to event	<p>Course planning</p> <p>Ensuring out of bounds areas and dangerous features can be avoided easily.</p> <p>Ensuring dangerous features are marked with yellow and black tape.</p> <p>Ensuring safety of those setting up the courses</p>	<p>Completing risk assessment</p> <p>Ensuring any identified safety information is communicated to competitors via the event final details</p> <p>Planning for safe event entry, parking, assembly and exit.</p> <p>First aid arrangements</p> <p>Emergency access plans</p> <p>Search and rescue plans</p> <p>Ensuring safety of those setting up remainder of event</p>	<p>Responsible for ensuring appropriateness of safety measures</p> <p>Signs off risk assessment</p>
Specific safety responsibilities during event	Ensuring any identified safety information is communicated to competitors at the course start	<p>Organising those providing safety functions such as:</p> <ul style="list-style-type: none"> - Manned crossing points - First aid - Car park marshalling - Event area marshalling 	
Specific safety responsibilities after event	Ensuring safety of those taking down the courses	Ensuring safety of those taking down remainder of event	

This document should be read in conjunction with the following:

- Event Risk Assessment
- Risk Assessment for SI Team Activities

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

2. Summary of Emergency Responsibilities

The following table summarises the split of responsibilities in an emergency. Note that for a local SOG event, Planner and Organiser may be the same person.

SI Team	Planner	Organiser	Controller
<p>SI INTERROGATION Arranging interrogation of SI boxes as needed to identify missing competitors / last known position</p> <p>COMMUNICATIONS Location of club mobile phone as central contact point. To do or delegate to appropriate others:</p> <ul style="list-style-type: none"> • Informing emergency services and obtaining incident reference • Informing and looking after family • Providing a sheltered waiting area for parent or carer of a missing child who has been asked to remain at assembly area so as to be present when child does return. • Calling out additional helpers • Informing Landowner • Informing BOF Office • The Chief Executive must be informed by telephone (07981 091319), if a serious incident has taken place; such as a fatality or a missing child. • Handling media if necessary (in conjunction with police) 	<p>SEARCH Organising searchers Ensuring searchers are issued with appropriate equipment and maps Ensuring searchers are issued with info cards from final page of this document Ensuring searchers are signed out and in again</p>	<p>EQUIPMENT Organising search equipment including communications and first aid Providing maps, keys as required to permit search</p> <p>EMERGENCY SERVICES INTERFACE Deciding when emergency services should be called Allocating club first aid effort Organising access routes for emergency services Providing hand over to emergency services.</p> <p>RECORDING Recording what has been done Filling out BOF incident form</p> <p>REMAINDER OF EVENT Manage remainder of event</p>	<p>OVERALL CONTROL Ensure coordinated response Keep out of detail to ensure oversight Plan ahead & troubleshoot Keep all up to date</p>

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

3. Safety for the People Involved in Event Planning / Set-Up / Take Down

Event Planning

Planning courses often involves visits to the event area by the planner or organiser on their own.

Course Set-Up / Taking Down

Setting up or taking down a course, by its nature, involves a small number of people working within the competition area outside of the times for which the main competition arrangements for search and rescue, first aid, etc are in place.

Event Set-Up / Taking Down

Whilst generally involving work in lower risk areas than the course set-up, those setting up signage, marked routes, etc may also be working outside of the times for which the main competition arrangements for search and rescue, first aid, etc are in place.

Responsibilities of those involved

- Make sure you have permission from the land owner and have checked there is no clash with other activities such as shooting or forestry activities
- Make sure some one knows where you are
- Make sure that person knows how long you are expected to be.
- Make sure that person has a means to communicate with you (mobile phone number) and you with them (mobile and land line number)
- Make sure that person has a copy of the map for the controls you are setting out so that if they need to call in help, they will know where to start looking for you.
- Make sure that person and you both have the contact numbers for the event planner and organiser or other experienced orienteers who could be called in to help.
- Exchange mobile numbers with any other helpers who are setting out the course alongside you.

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

4. Event-Specific Information in Risk Assessment Document

Event Risk Assessments

The event risk assessment process is as follows:

- The club event safety officer produces a starting point risk assessment based on experience from previous events in the same location and sends it to the organiser
- The organiser completes the risk assessment (with appropriate input from the planner) based on the actual arrangements and courses planned for the event. This is an iterative process and may take place over several months for a larger event.
- The organiser and planner then forward the risk assessment and copies of the planned courses to the controller for level A/B/C events or to an appropriate reviewer (the event safety officer, a licensed controller or a licensed coach) for level D events.
- The arrangements are reviewed / discussed / challenged as appropriate to the risk level of the event (for example, the junior night street courses for the Brighton City Race are walked by the safety officer or child protection officer) before the risk assessment is countersigned.

Communication

See event risk assessment for specific details of communication between officials

- Controller
- Organiser
- Planner
- Download
- Parking marshals
- Start (if remote from assembly area)
- Finish (if remote from assembly area)

See event risk assessment for mobile phone number which is printed on maps - this needs to be manned at all times.

Club mobile 07526-792817 lives with the SI kit and will be available at download. The organiser is responsible for ensuring that it is present and charged at the event.

Access Routes for Emergency Services

See event risk assessment for details of event location (grid reference / postcode) and emergency access routes.

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

First Aid Provision

See event risk assessment for specific details of first aid provision.

Typically:

Local event (level D or level C SOG)	First aid kit only
Level B/C event	Club first aiders (with rota so that a suitably qualified person is always dedicated to this role)
Large/ National events	External provider (note BOF website has a proforma first aid brief to use when booking)

First aid cover will need to be present throughout the competition times and until all participants are accounted for.

The club first aid kit lives with the SI equipment and contains:

- First aid equipment
- Local hospital details / maps.
- First aid advice booklet.
- List of contact details for some club members with first aid training
- BOF incident report forms

If emergency first aid is required at a local event, call 999 then try to locate suitably qualified club members to help. Continue as per section 11 of this plan.

If minor first aid is required at a local event:

- Find a space to deal with casualty away from busy download area.
- Sit casualty down.
- Make sure they are warm enough.
- Offer water.
- Wear gloves
- Offer treatment according to first aid advice in booklet
- **Fill in an incident form.**

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

5. Pre-Event Safety Check-List

The following is a suggested check list for the event organiser (or delegated safety officer) to use on the day of the event. It will be particularly helpful for larger events:

Safety-related items within the courses (e.g. hazard taping) will be confirmed by the event planner and controller before courses open.

Safety-related items relating to the event set-up:

Hazard	Mitigation	Initials when checked
Moving vehicles (car park / assembly areas)	Are compulsory routes to start clear? Is parking appropriately marshalled? Are marshals wearing high visibility jackets? Are marshals aware of procedure in the event of injury or fire?	
Electrical Equipment Generators	Have SI team sited all equipment and cables to prevent trip hazards? Have SI team sited all cables to prevent damage from traffic? Have SI team all electrical equipment suitably protected from the elements? Have SI team got generator sited where it is away from thoroughfares, taped off if necessary and suitably ventilated? Have SI team got fuel for generator stored safely? Do SI team have access to appropriate fire extinguishers?	
Traders	Have traders avoided trip hazards Have traders ensured any electrical equipment is suitably protected? If traders are using generators are these suitably sited and is fuel suitably stored? Do traders have access to appropriate fire extinguishers?	
Injury / existing medical conditions / unexpected reactions or allergies	Is first aid provision set up as defined in risk assessment? Is first aid point clearly identified? Are maps / postcode / phone numbers of local hospitals available? Are details of event location (grid reference / postcode) and emergency access routes available?	
Tent / flag guy rope trip hazards	Is area where club tents and flags can be erected clearly defined?	
Traffic (course crossings)	Are all crossing marshals in position? Are marshals wearing high visibility jackets? Are signs displayed warning of runners (as per risk assessment)?	
Emergency Equipment	Are all items listed in section 13 present?	
Communications	Have radios or mobile phones been allocated as per risk assessment? Are radios and phones all working? Do all users know to both make and receive calls? Do all users have a full list of radio / phone contact details for others?	
Fire	Do those at registration / download / tannoy point know where muster area will be? Are emergency exit routes from any buildings marked and kept clear? Are isolation points for electricity and gas supplies known if relevant? Ensure any fire protection doors remain closed	

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

6. Emergency Plan - MAJOR EMERGENCY SUCH AS FATALITY

A major emergency could be a very serious incident or combination of incidents, which may involve great distress and may have considerable organisational consequences. Examples are:

- Death or serious injury of a competitor, volunteer or spectator. This may be a child or a crowd.
- Serious damage to event infrastructure eg marquee collapse or fire.
- Deliberate major act of violence or vandalism.
- Sudden loss of event access roads eg major traffic accident just before or during an event.
- A situation, such as bad weather, which is considered to place participants, volunteers or spectators at serious risk.

Action	Information / Equipment Required	Things to Record
Inform event first aid		Current time:
Call emergency services	Use mobile phone to call 999 Give detail about location and type of emergency Event location (grid reference / postcode) and emergency access routes will be in risk assessment Organiser will hold any keys necessary to get emergency vehicles into site	Current time: Detail of incident: Names of casualties:
Notify event officials	Location and/or contact detail for event officials	Current time:
Set up an emergency control point	Organiser should adopt role of emergency coordinator. At a small local event download is likely to be the only tented area At a large event, a preferred location should be pre-allocated by the organiser	Name of coordinator Location of control point
Contact any other parties who need to know	BOF Office 01629 583037 - The Chief Executive must be informed by telephone (07981 091319), if a serious incident has taken place; such as a fatality or a missing child. Land owner	Time and summary of calls:

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

Action	Information / Equipment Required	Things to Record
Allocate people to specific roles	<p>Possible roles to consider:</p> <ul style="list-style-type: none"> • someone to identify / contact next of kin and look after them • someone to coordinate with emergency services • someone to coordinate with BOF • someone to deal with other people in the area (taping off, cordons, etc) • someone to deal with managing the remainder of the event (preventing anyone else starting, registering returning runners, etc) • someone to look after volunteers involved in managing the emergency (briefing them, monitoring how they are coping, providing shelter / food / drink) <p>Ensure communications is set up between these people</p>	Name, Phone number
Witnesses	Record details of any witnesses	Names / contact details
Media action	Instruct everyone to refer media enquiries to the police Remind all personnel not to pass on any names and information until next of kin informed and the release of this information has been agreed with Police and Chief Executive	
Coordinate with emergency services	<p>As required. The Police will take over control of the emergency when they arrive.</p> <p>Keep back (or keep details of) persons involved as statements may be needed Ensure all logs and other evidence are kept</p>	Time / details of activities:

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

7. Emergency Plan - FIRE

Action	Information / Equipment Required	Things to Record
Remove people from area	<ul style="list-style-type: none"> • Tell people to leave the area • Tell anyone operating electrical or cooking equipment to turn it off before leaving if they can do so safely • Turn off electrical / gas supplies at isolation point if possible • Ask available club members to establish a cordon <ul style="list-style-type: none"> ○ 20m from edge of combustible material ○ 50m from a vehicle or petrol generator fire 	Current time:
Call emergency services	<p>Use mobile phone to call 999 Give detail about location and type of fire to emergency services</p> <p>Event location (grid reference / postcode) and emergency access routes will be in risk assessment Organiser will hold any keys necessary to get emergency vehicles into site</p>	Current time:
Notify event organiser	Location and/or contact detail for organiser	Current time:
Contact any other parties who need to know	<p>BOF Office 01629 583037 - The Chief Executive must be informed by telephone (07981 091319), if a serious incident has taken place; such as a fatality or a missing child.</p> <p>Land owner</p>	Time and summary of calls:
Review and revise cordon as necessary	<p>Minimum 20m from edge of combustible material Minimum 50m from a vehicle or petrol generator fire Under no circumstances allow owners of vehicles neighbouring the fire to approach their own vehicles</p>	Time / details of review activities:
Coordinate with emergency services	As required	Time / details of activities:

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

8. Emergency Plan - LOST CHILD HANDOVER

The aim of the Child Handover Plan is to provide a safe method of reuniting a lone child, who is separated from its parent or carer, to its parent/carer or responsible adult. Whilst the risk of a child being handed over to an unsuitable adult is low, it is a risk that unfortunately cannot be ignored.

Action	Information / Equipment Required	Things to Record
On finding a lone child, they should be taken to the agreed safe location	<p>For a large event, there will be a pre-determined location for child handover.</p> <p>For small local events, an uninjured child found wandering should be taken to Download for safe keeping. He or she should be seated inside the tent and not allowed to escape!</p> <p>A child requiring first aid should be treated the same way as any other competitor but with strenuous efforts made to find the parent or carer and bring them to the child. A suitable adult should be identified to stay with the child until the parent or carer is found (ideally the child welfare officer or a DBS checked coach, known to the child if possible)</p>	<p>Time:</p> <p>Child's name: (note that the child's full name should NOT be broadcast - use parent's name on tannoy if child is old enough to communicate this; use child's first name and a brief description if not)</p> <p>Child's age:</p> <p>Child's address:</p> <p>Parent's name:</p> <p>Parent's phone number if child knows it:</p> <p>Club:</p> <p>Other relevant details e.g. where the child last saw parent or carer.</p>
Notify event officials	<p>Location and/or contact detail for organiser</p> <p>Club child welfare officer Clare Lines: 07747 032343</p>	Current time:
Make strenuous efforts to find the parent / carer	<p>Club members may know where to find them or know contact details</p> <p>Mobile number may be registered with SPORTident or BOF</p> <p>EOD dibber hire should have number recorded on hire form.</p>	Details provided
Hand child back to parent / carer	<p>The child shall only be handed over to an adult and preferably the parent. It must be obvious that the child recognises the adult.</p> <p>If there is some doubt about the identity of the adult and/or the relationship with the child, then it may be necessary to ask the adult for verification of their identity. It is suggested that the Organiser is called. If there is lots of concern about the identity of the adult and the relationship with the child, officials may consider refusing to hand over the child.</p> <p>Note that a young person is any child under 18 years and an adult has moral and statutory duty of care, custody and control of any child under 18 years under their supervision. (See British Orienteering Policies v1.1 p72-75 and Children's Act 1989)</p>	<p>Name of adult:</p> <p>Address of adult:</p> <p>Relationship with the child:</p> <p>Time of handover:</p>

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

9. Emergency Plan - WHEN NOTIFIED OF A MISSING PARTICIPANT

This procedure should be followed if a participant is reported overdue before course closing time OR is missing when the courses close

Action	Information / Equipment Required	Things to Record
Notify event organiser	Location and/or contact detail for organiser	Current time:
Record the details of the missing person	<p>Pen</p> <p>If person reporting missing participant is a relative, it is worth asking whether they have a photo on a mobile phone which can be used to show searchers (depending on the phone type, it may be possible possibly to transfer this to searchers' mobile phones.</p> <p>IF IT IS A CHILD, ENSURE ONE PARENT REMAINS AT DOWNLOAD TO BE THERE IF CHILD DOES APPEAR</p> <p>Build up as much information as possible</p> <p>Allocate someone to look after a concerned relative.</p>	<p>Name:</p> <p>Sex:</p> <p>Age:</p> <p>Course:</p> <p>Start Time:</p> <p>Address:</p> <p>Tel:</p> <p>Car Registration:</p> <p>Alone/Accompanied?</p> <p>Is their clothing adequate for being still in current weather?</p> <p>Were they carrying a whistle?</p> <p>Any medical condition?</p> <p>Any known injury?</p> <p>Orienteering Experience?</p> <p>Description – height/build/appearance/clothing:</p>
Check whether they actually started	<p>At large pre-registered event, check start list marked up at the start point</p> <p>At any SI event, download of SI check box and/or start box</p> <p>At small, non-SI event, check list of competitors made at start</p>	Did they start?
Check whether they downloaded	<p>At any SI event, check results / download of SI finish box</p> <p>At small, non-SI event, check list of competitors ticked off at finish</p>	Did they download?

EVENT SAFETY PLAN

SOUTHDOVNS ORIENTEERS

Action	Information / Equipment Required	Things to Record
What are typical finish times for the class?	Actual times available from SI team Estimates available from planner	Typical finish times? How 'late' is the competitor currently?
Try to contact them	At a large event, put out a tannoy announcement for them to report to download Person reporting them missing may know contact details Club members may know contact details Mobile number may be registered with SPORTident or BOF EOD dibber hire should have number recorded on hire form.	Able to contact them? Are they safe?
Check all obvious locations	Ask someone who would recognise them to check club tent, assembly area, string course, car park, toilets, etc. If a safety bearing was given, check the route back that a person following that instruction would have taken	Club tent? Assembly area? String Course? Toilets? Car park? Is their car still in the car park? Route back from safety bearing?
Ask if anyone has seen them	Did any club mate see them on their way round? Have control or road crossing marshals seen anyone matching the description? Quiz finishers to check if anyone has seen the missing competitor or anything unusual.	If seen: Approximately when? Where? By Whom?
Decide whether a search is needed.	Consider: <ul style="list-style-type: none"> • Participant details (age, known medical conditions, etc) • Age and/or experience of the competitor • Amount of daylight left • Unattended vehicle remaining in car park • Weather currently & forecasted • Known medical condition • Density of competitors still in the terrain • Nature of the terrain • Elapsed time • Time of year IF SEARCH REQUIRED PROCEED TO SECTION 10	Initial decision to search or not: Time: As an example, it might be reasonable to be sending out searchers to start a 'backward round the course' search if a young child is overdue by more than half an hour and the above steps have failed to locate them - particularly if weather is poor. For an experienced adult on a long course in good weather this might reasonably extended to an hour overdue; possibly more if they have a history of erratic navigation leading to long course times.

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

Action	Information / Equipment Required	Things to Record
Continue to review need for a search	<p>As above, repeating checks as seem appropriate</p> <p>Try to ensure needs of friends and relatives are dealt with.</p> <p>IF SEARCH REQUIRED PROCEED TO SECTION 10</p>	<p><u>Time of review</u> <u>Decision</u></p>

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

Action	Information / Equipment Required	Things to Record
Consider notifying police on non-emergency number 101	In general, the police will appreciate early notification, even if you are not actually requesting help at the time. Their response will depend on the circumstances - they will decide whether to gather searchers, based upon the information which you supply. It is important that you give as many details as you can of the situation and the missing person. Although an officer may attend reasonably quickly it can take a significant length of time for them to mobilise any number of helpers. Even when help does arrive, the expertise of orienteers to navigate precisely over complex terrain, even at night, should be remembered.	Police incident reference number Are police going to send someone at this point? Should further notification be to this number or to 999? Any other detail from the call:
Based on course entered and information gathered about sightings, send out one pair to follow reverse route round course	Ideally one SO searcher familiar with the area and one searcher who would recognise the missing person. One with first aid training if possible. Searchers will require: <ul style="list-style-type: none"> - Searcher briefing card (see section 13) - Suitable clothing for their own protection and comfort - Details of the person they are looking for - Means of communication - Map showing search route (consider adding grid markings for ease of describing current location) - Emergency pack IF MISSING PERSON IS FOUND AND IS INJURED, PROCEED TO SECTION 11	COURSE BACKWARDS SEARCH Name of searcher 1 Mobile number or radio details Name of searcher 2 Mobile number or radio details Time out Time back Result of search:
Send out one pair to drive route round perimeter roads and any other roads in the mapped area	Ideally SO driver plus searcher who would recognise the missing person. One with first aid training if possible. Searchers will require: <ul style="list-style-type: none"> - Searcher briefing card (see section 13) - Suitable clothing for their own protection and comfort - Details of the person they are looking for - Means of communication + whistle - Compass + map showing search route (consider adding grid markings for ease of describing current location) - Emergency pack IF MISSING PERSON IS FOUND AND IS INJURED, PROCEED TO SECTION 11	COURSE PERIMETER SEARCH Name of searcher 1 Mobile number or radio details Name of searcher 2 Mobile number or radio details Time out Time back Result of search:

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

Action	Information / Equipment Required	Things to Record
If after the end of the event, prioritise collection of controls from the entered course and interrogate control boxes to find out last confirmed location	Interrogation of controls can be done by the SI team Leaving stakes and flags for the entered course in position will help with the ability of others to search around that course.	List all controls on course and indicate those that have been visited
Contact police again	If competitor has not been found and police have not already provided help at the scene, call police (999 or 101 as agreed on first call) and request help. If competitor has been found, notify police on non-emergency number 101 Quote police incident reference number recorded above.	Time and summary of call:
Based on course entered and information gathered about sightings, send out additional pair(s) to search area between last confirmed location and first missed control	Allocate searchers depending on terrain and probabilities: Which areas have the highest probabilities of containing the competitor? Which areas require more searchers to tackle (e.g. a field may have the same area as a piece of woodland but can be covered much more quickly by a smaller number of searchers). Ideally one SO searcher familiar with the area and one searcher who would recognise the missing person. One with first aid training if possible. Searchers will require: <ul style="list-style-type: none"> - Searcher briefing card (see section 13) - Suitable clothing for their own protection and comfort - Details of the person they are looking for - Means of communication + whistle - Compass + map showing search route (consider adding grid markings for ease of describing current location) - Emergency pack IF MISSING PERSON IS FOUND AND IS INJURED, PROCEED TO SECTION 11	DETAILED SEARCH OF MOST LIKELY AREA Name of searcher 1 Mobile number or radio details Name of searcher 2 Mobile number or radio details Time out Time back Result of search:

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

Action	Information / Equipment Required	Things to Record
Contact any other parties who need to know	<p>Next of kin</p> <p>BOF Office 01629 583037 - The Chief Executive must be informed by telephone (07981 091319), if a serious incident has taken place; such as a fatality or a missing child.</p> <p>Land owner</p> <p>Consider implementing other elements of major emergency plan such as how to deal with media contacts.</p>	Time and summary of calls:
Continue to search and provide assistance as requested by police	<p>Ribbon searching – this only covers linear features and the land on either side. A competitor injured in the middle of a thick block of forest may still be found by ribbon searching if they use their whistle or shout for help. Following the competitor's course is a sort of ribbon search but it is difficult whenever there is a route choice.</p> <p>Sectoring – this involves a comprehensive sweep search of selected pieces of land. It is very slow and labour intensive - probably requiring more people than you will have available. The reality of searching is that, if the missing person is unconscious, it will take a very long time to locate them in the sort of terrain that we use.</p>	<p>RECORD ALL PAIRS OR GROUPS OF SEARCHERS IN AND OUT ON NEXT PAGE</p> <p>RECORD SEARCH PROGRESS ON A BLANK MAP, HIGHLIGHTING ANY FEATURE THAT CANNOT BE 'CLEARED'</p> <p>IF AREA IS NOT BOUNDED, CONSIDER POSSIBILITY THAT MISSING COMPETITOR MAY BE OFF MAP</p>

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

11. Emergency Plan - WHEN NOTIFIED OF AN INJURED PARTICIPANT

This procedure should be followed if an injured participant is reported by another person or if a search results in the discovery of an injured person.

Action	Information / Equipment Required	Things to Record
Record the location / condition of the injured person	Pen Blank map with grid markings Pen	Record location on blank map and attach it to this emergency plan Injured person reported by whom (name, club): Initial assessment of injured person's condition Report made to whom:
Record the details of the casualty if known and if not already done in section 6	Just record whatever is known at this point and come back to this once first aid is underway.	Name: Sex: Age: Course: Club: Start Time: Description: Address: Tel: Car Registration: Alone/Accompanied? Is their clothing adequate for being still in current weather? Any known medical condition? Has Casualty Been Told to Stay Put and Await Assistance? Next of kin details if known:

EVENT SAFETY PLAN

SOUTH DOWNS ORIENTEERS

Action	Information / Equipment Required	Things to Record
If initial assessment is that ambulance is required, phone 999	<p>Location of casualty</p> <p>Event location (grid reference / postcode) and emergency access routes will be in risk assessment Organiser will hold any keys necessary to get emergency vehicles into site</p>	<p>If 999 dialled: Time Location requested: Names and mobile numbers of people sent to meet ambulance</p>
Notify event organiser	Location and/or contact detail for organiser	Current time:
Send first aid party to location of casualty	<p>Consider possible use of on-road and 4x4 vehicles</p> <p>Ideally one SO searcher familiar with the area/map plus first aider(s) plus possibly the person who reported casualty who should be able to help locate them. First aid party will require:</p> <ul style="list-style-type: none"> - First aid equipment - Warm clothing for casualty - Food and drink for casualty if first aider gives permission - Searcher briefing card (see section 13) - Suitable clothing for their own protection and comfort - Means of communication + whistle - Compass + map of area marked up with casualty location 	<p>Times sent People sent</p> <p>Feedback provided by first aid party</p>
Assist first aiders and emergency services as required	<p>Possible actions needed include</p> <ul style="list-style-type: none"> - Directing emergency personnel to casualty - Providing helpers to hold back exiting traffic so emergency services can get in - Providing helpers to ensure an area is clear of people for an air ambulance landing 	Record actions taken
Contact any other parties who need to know	<p>Next of kin</p> <p>BOF Office 01629 583037 - The Chief Executive must be informed by telephone (07981 091319), if a serious incident has taken place; such as a fatality or a missing child.</p> <p>Land owner</p> <p>Consider implementing other elements of major emergency plan such as how to deal with media contacts.</p>	Time and summary of calls:
